## Marketing, Education and Outreach Program

	Mission	IOU COMMENTS
SW Program: Marketing,	Increase consumer awareness and participation in	IOUs suggest minor edits to the mission
Education & Outreach	demand-side management activities and to encourage	statement as follows:
(ME&O)	behavior changes that save energy, reduce	
	greenhouse gas emissions, and support clean energy	Increase consumer awareness, knowledge, and
		participation in demand-side management
		activities and to change attitudes and
		encourage behavior changes that save energy,
		reduce greenhouse gas emissions, and support
		clean energy solutions.

CA EESP Goals/Strategies Addressed by SW <u>Sub-program</u> : Create and launch an integrated, statewide Marketing,	CA EESP
Education and Outreach effort for Energy Efficiency, including an energy efficiency brand, resulting in high levels of	Ref. pp.#
awareness statewide of the value of energy efficiency that leads to strong demand for energy efficient products, homes	
and services	
Strategy 1-1: Establish a recognizable and trustworthy brand for California's Energy Efficiency and other DSM	
consumer products & services	
2010-2012 Near Term:	p. 82
1. Research appropriate look and meaning of a California efficiency/GHG reduction brand: (done)	
2. Launch integrated efficiency/DSM brand in 2010	
Strategy 1-2: Develop an integrated marketing plan for all Californians.	
2010-2012 Near Term Goals:	
1. Conduct SW segmentation research, on interests, awareness and attitudes/perceptions related to EE and	
GHG messaging (done);	
2. Establish objectives and metrics for public campaign;	p. 82
3. Develop targeted and highly relevant EE and DSM marketing messages to incite behavior change/action;	
4. Create partnerships with private industry and businesses to help motivate consumer and business	

sector action;	
5. Define deliverables for each strategy.	
Strategy 1-3: Use social marketing techniques to build awareness and change consumer attitudes, and	p. 82
perceptions. 2010-2012 Near Term Goals:	μ. δ2
1. Develop a roadmap for a social marketing approach including exploration of behavioral science	
principles.	
Strategy 1-4: Develop a California energy efficiency web portal with statewide information on GHG reductions,	
efficiency and DSM awareness and options. (done in Sept. 2010)	
2010-2012 Near Term Goals:	p. 82
1. Develop initial web portal for the energy efficiency/DSM industry	
2. Begin pilot programs in using web portal	

Short-term (2010-2012) "SMART" <u>Sub-program</u> Objectives:	Source (SP, AL, DR, PIP, or Staff)*	IOU COMMENTS
<ol> <li>By 2012, increase awareness and knowledge of Engage360 brand among targeted</li> <li>IOU customers by X and Y percent ( (IOUS will submit research regarding what X and Y will be in their 9/29 document). COMMENT: the X and Y will not include any bump the brand might get from any additional programs.</li> <li>these numbers might be impacted by IOU cobranding which is not expected to happen until the end of the cycle, at the earliest.</li> <li>numbers will be CAVEATED with comparative categories, etc.</li> </ol>	SP, PIP	The PIP does not address how the program will be implemented.  The IOUs propose that the objectives reflect the timing of program implementation.  Specifically, implementation will occur in a two-stage campaign wherein the bulk of the 2010-2012 cycle will be dedicated to the first stage, "Grassroots and Social Networking." During this first stage, a relatively focused group of influencers will be targeted by one-to-one and one-to-many marketing efforts. In the second stage, which

		is unlikely to begin any earlier than the end of the 2010-2012 cycle, two segments of the general population comprising "high EE propensity" California adults (see 2009 ME&O segmentation study for details) will be targeted in a broader marketing effort. The 2013-2015 cycle will be dedicated to the second stage of the campaign, and the objectives for that cycle should emphasize the second stage.  Given this phased roll-out of the program, we propose the following objective for the 2010-2012 cycle that emphases phase one:  By 2012, increase awareness and knowledge of the Engage360 brand among those customers targeted by the "Grassroots and Social Networking" program efforts by 10 percent and 5 percent respectively.
2. By 2012, increase in awareness and knowledge of specific energy efficient actions among targeted IOU customers	Staff	IOUs would like to modify this as follows:
		By 2012, increase the number of specific self-reported energy efficiency actions among

		IOU customer groups specifically targeted by the initial phase of the program.
3. By 2012, increase the number of specific self-reported energy efficiency actions by targeted IOU customers.	· ·	IOUs would like to modify this as follows:
		By 2012, increase the number of specific self-reported energy efficiency actions among customer groups specifically targeted by the initial phase of the program.

Short-term <u>Sub-program</u> PPMs:	Source (SP, AL, DR, PIP, or Staff)*	Metric Type (2a or 2b)**	Baseline Study Required (Y/N)	IOU COMMENTS
1. Awareness and knowledge of the Engage360 brand.	SP, PIP	2a  IOUs suggest this be changed to a 2b metric given the late launch of the campaign		The IOU's propose the following: Awareness and knowledge of key elements of the Engage360 brand among customer groups specifically targeted by phase one ("Grassroots and Social Networking") of the program.  This metric does NOT require a baseline since the starting poin is 0, however, it will require ongoing tracking
2. Awareness and knowledge of specific energy efficient actions.				The IOU's propose the following: Awareness and knowledge of energy
				efficient actions promoted

		2b	Y	by the program among customer groups specifically targeted by phase one ("Grassroots and Social Networking") of the program. Need baseline for assessing awareness and knowledge of "specific" EE actions.
The number of self-reported specific energy efficiency Actions.	SP, PIP	2b	Y	The IOU's propose the following: The number and type of energy efficient actions self-reported by customer groups specifically targeted by phase one ("Grassroots and Social Networking") of the program.  Current baseline study assesses specific EE actions.

<sup>\*</sup>SP=Strategic Plan, AL=Advice Letter, DR=Data Request Response, PIP=program plans, Staff=ED proposed. [Include page reference when applicable.]

<sup>\*\*</sup>Metric type: 2a = reported annually, 2b = reported by end of cycle.

Long-Term (2013-2020) "SMART" <u>Sub-program</u> Objectives:	Source (SP, AL, DR, PIP, or Staff)*	IOU COMMENTS
1. By 2020, xx% of Californians will have taken EE/conservation actions	SP, PIP	In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
2. By 2020, xx% of Californians are aware of energy management		In order for IOUs to provide substantive
strategies including EE, E conservation, DR and DG.		suggestions for these percentages, we

3. By 2020, the average number of actions taken per household will have increased by xx %.	Staff Staff	would require more time to contemplate and to gather input from other key stakeholders.  In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
4. By 2020, the percent of Californians that consider themselves an EE advocate will increase by $x\%$ .	Staff	In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
5. By 2020 percent reduction in targeted households average energy consumption.	SP, PIP	In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
6. By 2020, increase the conversion of targeted customers to a Smart Energy Lifestyle by x%.		In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
7. By 2020, the percent of resource program participants channeled via ME&O activities will exceed X%.		In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
