**PG&E MAKES ADDITIONAL PIPELINE INFORMATION
AVAILABLE FOR CUSTOMERS**

SAN FRANCISCO, Calif. – As part of its ongoing commitment to provide transparent and meaningful information to customers, Pacific Gas and Electric Company (PG&E) is making additional information about the utility's natural gas pipelines available online.

PG&E 'My Account' customers can obtain personalized gas transmission pipeline information through a secure login available online at www.pge.com. Customers can see whether any of PG&E's gas transmission lines are in close proximity to their home, and if so, where those lines are located. Maps include gas transmission pipeline segments that have been identified for engineering analysis and future work as part of PG&E's ongoing preventive maintenance process. A link to this login for PG&E 'My Account' customers has also been placed on PG&E's pipeline information page at: www.pge.com/pipelineplanning. Customers without Internet access or who would like live support from a PG&E customer service representative should call 888-743-7431.

Public information regarding PG&E's transmission system and planning segments are available at www.pge.com/pipelineplanning. PG&E representatives continue to work with local officials to provide additional details on its pipelines.

Pacific Gas and Electric Company, a subsidiary of [PG&E Corporation](http://www.pge.com) (NYSE:PCG), is one of the largest combined natural gas and electric utilities in the United States. Based in San Francisco, with 20,000 employees, the company delivers some of the nation's cleanest energy to 15 million people in Northern and Central California.
