Subject: Fw: News Conference: PG&E to Announce Program for Advancing Natural Gas Transmission Pipeline Practices

From: Internal Communications
To: All PG&E Mail Recipients; All PGE Corp Employees
Sent: Tue Oct 12 11:12:13 2010
Subject: News Conference: PG&E to Announce Program for Advancing Natural Gas Transmission Pipeline Practices

Today at 1 p.m., PG&E will hold a news conference to discuss the company's ongoing efforts to strengthen its natural gas transmission system and advance industry best practices over the coming decade.

Listening to the Call

All employees are encouraged to participate by listening to the news conference, work load permitting. If you are not sure whether you should listen to the news conference, please check with your supervisor. A link to the playback of the news conference will be available on pge.com tomorrow morning.

Since phone lines for this conference call are limited, we strongly recommend employees form listening groups wherever possible.

Conference Call Details

It is recommended that you dial in 30 to 60 minutes prior to the start of the meeting to ensure you are connected before the meeting starts. Be prepared to provide your name and LAN ID. You will hear music until the meeting begins.

Date: Today, Tuesday, October 12, 2010
