Subject: DAWG: [FWD: ENERGPOLICY-LIST: Staff Workshop on Electricity Demand Forecast Data Collection and Analysis]

DEMAND ANALYSIS WORKING GROUP (DAWG)

Working Group,

Please see notice below regarding a workshop to discuss "forms and instructions" for submitting forecast information for the 2011 IEPR.

Thank you.

Subject: ENERGPOLICY-LIST: Staff Workshop on Electricity Demand Forecast Data Collection and Analysis

From: Energy Commission <listenergia@listserver.energy.ca.gov>

Date: Fri, October 01, 2010 3:10 pm

To: ENERGPOLICY@LISTSERVER.ENERGY.CA.GOV

Notice of Staff Workshop on
Electricity Demand Forecast

Data Collection and Analysis

The California Energy Commission staff will conduct a workshop to solicit comments on proposed data collection and analyses for the 2011 Integrated Energy Policy Report (2011 IEPR) relating to electricity demand forecasts. This work is overseen by the Energy Commission's IEPR Committee, Chairman Karen Douglas, Presiding Member, and Commissioner Jeffrey D. Byron, Associate Member. While this is a staff workshop, Commissioners may attend and participate.

Following the workshop, the IEPR Committee will establish the final requirements and schedule for submittal of demand forecasts and related information. The workshop will be held:

THURSDAY, OCTOBER 14, 2010
9 a.m.
CALIFORNIA ENERGY COMMISSION
1516 Ninth Street
First Floor, Hearing Room A
Sacramento, California
(Wheelchair Accessible)

Remote Attendance

Web Conferencing - Presentations and audio from the meeting will be broadcast via our WebEx web conferencing system. For details on how to participate via WebEx, please see the "Participation through WebEx" section at the end of this notice.

Purpose

This staff workshop is to provide the Energy Commission and the public with the opportunity to consider a range of perspectives on energy demand trends. Staff is proposing to request electricity demand forecasts, demand-side management impacts, retail price information, and related information from all load-serving entities in California with annual peak demand greater than 200 megawatts. These data will be used to develop the staff electricity demand forecast and provide an alternative view of future demand trends.
