Subject: Re: MEA Billing Changes

While it is true that PG&E's billing system revamping projects have left much to be desired, it is not the most productive way to resolve the issue at hand. So let us focus on what needs to be done and done quickly. I thought the purpose of the meeting was for Eric to tell us what is being done to resolve the matter.

I don't think that would be helpful to address our current problem. I'll stipulate to the fact that we have spent a significant amount of money to date and that we have a continuing need to make further improvements.

I'd like to request that Erik bring along a list of all the Commission decisions and proceedings that have given PG&E funding to revamp its billing system, over, to start, say, the last 10 years. Also the amount of funding authorized. Just a one-page summary would be a good start.

Erik, will you do that?

Steve
