Subject: FW: MEA Billing Changes

Hi Dawn and Erik,

With Gurbux's okay, I'm forwarding to Dawn this note that Erik sent to Gurbux and me yesterday.

Dawn, we would like to know if you agree with Erik's basic point: "It also looks like we are making good progress in resolving the outstanding issues with MEA. I'm expecting we may have everything resolved in a few more days"

If you agree, great. If not, what, specifically, remains to be resolved?

We are glad to leave this to PG&E and MEA to work through at the operational level, but if that is not happening, please let us know.

And thanks to both of you for your efforts so far--

Steve Roscow

CPUC Energy Division

Subject: RE: Red Billing Changes

Gurbux and Steve,

We need to reschedule this meeting because the IT Director I was going to bring to the meeting has a conflict at 10:00. It also looks like we are making good progress in resolving the outstanding issues with Reda. I'm expecting we may have everything resolved in a few more days. If you still want to meet once we get this resolved, we can do that to discuss the solution, or in the off chance we don't reach agreement, then we can meet to discuss the outstanding issues. Do want to reschedule something for this Thursday or Friday (afternoon would be best for us), or just wait a few more days to see how things develop?

Erik
