ETA is end of next week. Some security issues were identified with the SoCalGas mapping application that we need to make sure we do not duplicate, so we are proceeding carefully. I will have confirmation on the launch date by Tuesday.

Ed and Pat - President Peevey would like to know how quickly we can duplicate the SoCalGas model for PG&E ?

**Subject:** Website Showing Gas Transmission System

Brian, President Peevey and Frank and I've been looking at SoCalGas's website allowing people to put in their address and see where gas transmission lines are. How long would it take PG&E to do something similar?
