**Application 04-05-041
(Filed May 27, 2004)**

**NOTIFICATION UNDER ORDERING PARAGRAPH 5
OF DECISION 06-11-006**

Pursuant to Ordering Paragraph 5 (OP 5) of Decision (D.) 06-11-006, Pacific Gas and Electric Company (PG&E) submits this notice that margin calls not offset by other hedges exceeded \$600 million on October 1, 2010. OP 5 states (modified 1/11/2008):

PG&E shall file and service notice when margin calls that are not offset by other hedges reach \$300 million, \$600 million, \$900 million, and each \$300 million increment thereafter for the first time in each calendar quarter. The notice shall include (i) the potential per-customer impact of the margin calls, (ii) an estimate of the likelihood of higher margin calls, and (iii) a description of the steps that PG&E has taken or will take to mitigate the ratepayer impact of the margin calls. PG&E shall file and serve the notice within five business days of the margin calls reaching the previously specified levels. The notice shall be served on the service lists for (i) the consolidated proceedings in which D.06-08-

027 was issued, (ii) Application No. 06-05-007, and (iii) PG&E Advice Letter 2685-E, which was approved in Resolution E-3951. Once margin calls not offset by other hedges have reached a given threshold identified above, and PG&E has filed and served the notice required in the first sentence of this ordering paragraph, no additional notification is required if PG&E subsequently passes the same threshold again within the same calendar quarter.

On October 1, 2010, margin calls subject to OP 5 notification exceeded \$600 million. The total amount of collateral posting for margin calls on that day was approximately \$853.9 million. The posting of collateral for margin calls, by itself, has no significant impact on the customer, other than the financing costs associated with posting cash or letters of credit. These costs depend on how long the collateral is outstanding and the type of financing used. For example, if letters of credit were used to post \$300 million, the fee for the letters of credit would be approximately \$2,400 per day at present. However, if \$300 million were posted through short-term borrowing using commercial paper, the financing cost would be higher and vary accordingly. Currently, this financing cost based on a 1 month commercial paper rate is approximately \$5,400 per day. These fees by themselves would have a negligible per-customer impact.

Over a given time horizon, energy prices will increase or decrease; each of these two possibilities has substantial probability. The size of the price change depends on a number of factors impacting the energy market. Therefore, there is a reasonable likelihood of further margin calls.

///

///

///

By itself, collateral posting for the margin calls have negligible impact on customer costs, as indicated above. In addition, on September 23, 2010, the Commission adopted Resolution E-4362, approving PG&E's request for changes to PG&E's confidential Hedging Plan. With this Resolution and recent actions by PG&E associated with implementation of the confidential Hedging Plan, no further plan is needed to mitigate the ratepayer impact of margin calls.

Respectfully submitted,

DOREEN A. LUDEMANN
