

**NOTICE OF
JOINT UTILITIES MEETING FOR
LOW INCOME ENERGY EFFICIENCY (LIEE) PROGRAM**

October 28, 2010 – 10:00 am – 3:00 pm

Pacific Gas and Electric Company (PG&E), Southern California Edison Company (SCE), Southern California Gas Company (SoCalGas), and San Diego Gas & Electric Company (SDG&E) (the Joint Utilities) will continue to host a series of meetings to review and accept comments on the Low Income Energy Efficiency program Statewide Installation Standards (IS) manual.

The Joint Utilities are accepting public input to update the IS manual with those changes identified since its last publication (April 2006). These include 1) those changes required to bring the Standards in compliance with the presently adopted state and local codes; and 2) program changes/ issues LIEE contractors may have identified as issues in the field.

There will also be continued discussion on how the IS updates may prompt changes to the P&P manual or what changes may need to be considered for inclusion in the upcoming 2012-2014 Program Applications.

The meeting on October 28, 2010 will be held at the PG&E San Ramon Valley Conference Center facility, located at 3301 Crow Canyon Road in San Ramon.

The Joint Utilities meeting agenda is also included in this notice.

As a reminder, the Installation Standards are located at www.utilitywis.com where participants can register for access. The IS sections for our next meeting are available at this site, in addition to those sections that were already made available.

This meeting notice is being sent to all parties in the service list of Application 08-05-022 et al, as well as the utilities contractor and agency contacts. Parties who have questions regarding the meeting may contact Kathy Wickware at 1-858-654-1769 or KWickware@SempraUtilities.com.
