Subject: San Bruno draft Sup AL feedback

Just a couple of quick items on the draft for now.

1) How would the bill relief apply in cases where a customer in the affected area sells their house prior to it being rebuilt or before the bill relief terminates?

2) It is unclear what "one temporary housing location" means. (For example, if a displaced family splits up to 4 separate locations, would the bill relief only apply to one location? Or, if a displaced customer stays at one temporary location for awhile and then moves to another temporary location, would it apply to the second or subsequent locations?)

3) Would the bill relief for displaced customers continue until the end of Jan 2012 even if the customer moves into the rebuilt home before then?

4) There will be no protest period for the supplement per the Energy Division under G.O. 96-B Rule 7.5.1. The supplement should state this.

We will likely have a few more items and hope to get them to you as soon as we can. Thank you.

Eugene
