Subject: RE: Pls add Lynch dissent excerpt to statutes/decisions language (appendix)
Hello [Redacted] and All Parties,

Apologies for TURN being out of the loop on this the past week or so! The process of developing a workshop report appears to have gotten severely muddled from what TURN understood would be the process at the Sept. 27th workshop. Per the Sept workshop, it was evident that the workshop report would not be “consensus”. This continues to be the case even with the ALJ’s extension in report filing from Oct 15th to Oct 22nd.

TURN proposes that the CCA and utilities should each prepare their own positions and submit them directly to Steve Roscow; and that Steve, not the utilities, should prepare a short position-neutral introduction and file the document by COB tomorrow October 22nd. This can be extremely short; just summarizing the process to date.

Any discussion of statutory and regulatory language, including legal interpretation, should be in the parties’ respective report section. In other words, the current utility draft introduction should be folded into the utilities report section.

Also, there is no need for the utilities or CCAs to edit each other’s report sections. The parties have that opportunity per the comment and reply comment schedule November 15 and 29th.

Subject: Pls add Lynch dissent excerpt to statutes/decisions language (appendix)

Hi [Redacted]

Please include the attached as part of the Appendix - Lynch dissent to D0401032. I cut about a page, but the rest is all relevant.

Thanks,

Barbara

Hi [Redacted]

Thanks for the extension to 10 am Thurs.

Will the IOUs be able to respond to WEM's data request today? It is essential to clarify what portion of the funds IOUs propose to retain.

Barbara

Barbara and all,

I need time enough time to incorporate comments into the final draft, and then circulate the final report for parties to review and sign off by Friday morning. If you need more time for provide comments, I can extend until tomorrow morning at 10.

Please remember that substantive comments to particular options need to be reviewed with the sponsoring leads prior to them being incorporated into the report. (Beth Rasmussen is backing up Mike Campbell on the CCA proposal).

Also, for clarification parties can be a Joint Party to the report without signing on to a specific option.

Subject: extend deadline for input on report to Thurs. 3pm

Redacted and others,

I see no reason why there is a 3 pm deadline today for people to finalize their input and sign on to this report. That is not enough time to work on all the sections. Let's make it 3pm Thurs. instead.

Barbara

Attached is the Draft Joint CCA Workshop Report for your review and comments. The attached draft was prepared and reviewed by representatives of City and County of San Francisco, Marin Energy Authority, San Joaquin Valley Power Authority, PG&E and Southern California Gas Company. The document should be considered a work in progress and does not represent the final approval of the parties management.

We propose to include an edited version of WEM's workshop summary as Appendix A to the draft, but were not able to complete the edits to include here. That will come early next week.
