Subject: RE: ED-Utilities non-DEER process meeting notice-Wednesday May 26th

Peter,

Attached are the joint IOU comments:

Should we set up a joint meeting to go through these comments?

Steven M. Long, P.E.
Manager
Energy Engineering
Strategic Planning and Technical Services
Customer Energy Efficiency and Solar Division
Southern California Edison

Hi Athena and All,
As to Appendix 1, baseline guidance document, ED has received comments from PG&E, and looks forward to receiving comments from Sempra.

As to other documents that are in ED's to-do list, I will get together with Zenaida next week, and will get back to the IOUs.

Thanks,
Peter

Subject: RE: ED-Utilities non-DEER process meeting notice-Wednesday May 26th

Hi, Peter!

The IOUs continue to work on the straw man proposal that [Red] provided to us. Unfortunately, we are still working through the document and preparing our response. We expect to provide the document to you by Wednesday next week (6/30).

On the other track that we have been working on with you and your team--the Non-DEER measure working papers, we want to have an understanding of where we are in terms of the review/approval of the work papers. We know everyone is busy but we need to all make progress towards locking down savings assumptions so we can fully prepare for reporting.

Let us know your thoughts on moving forward.

Thanks,

Athena

Subject: Re: ED-Utilities non-DEER process meeting notice-Wednesday May 26th
Peter Lai requested I send this email with its attachment.

Attached is a replacement version of the custom measure procedures draft document. The only changes are a replaced Appendix I. The changes to the appendix are:

- flow chart mistakes corrected
- some clarification added to the wording in some of the boxes
- notes and related discussion/examples were added below the flowchart to define terms and ideas presented in the flowchart

- Utilities to raise what is not clear about the Phase 2 review process under the November 18, 2009 ALJ ruling.
- ED high-level preview of draft custom application review process protocol.
