Since I haven't heard from Kirk, I'm assuming we are fine weather wise but let me check anyway. As for the repressurization, we are still evaluating the pipe, which includes digging up sections to test as necessary. I'd say we are a few weeks out from resolving that. But I will check that too.

Kirk - anything to add ?

Brian, any change since yesterday in Kirk's thinking about the need for curtailments this week? Also, when will we be talking again about the possibility of raising pressure on 101? Thx.
