Thanks. On the curtailment stuff, Paul is looking to Energy Division, so I appreciate getting the latest. He also mentioned the proposal to offer vouchers for conservation on the peninsula. Do you have any details on the proposal? I realize if it's all shareholder funded, we really have nothing official to say about it, but we were still curious about the targeting and how it would work. Thanks.

Julie

Brian, it is getting cold but with Potrero off line we be OK. Wednesday and Thursday are forecasted at about 46.7 degrees. Cold winter day is 42 degrees at which time we will be curtailing non core customers.
