Dear Christopher:

Re: CPSD Data Request No. 1: Mr Devereaux

The purpose of this communication is to provide you with a status update on PG&E's ability to fully respond to the above-referenced Data Request by the deadline of December 10, 2010. PG&E is currently working on developing responses to the Data Request including compiling responsive documents and expects to provide responses to the questions by the December 10th due date.

Additionally, PG&E is currently engaged in an ongoing investigation into the scope of Mr. Devereaux's SmartMeter™-related on-line activities and the investigation may not be completed by December 10th. Given that the ongoing internal investigation may extend beyond December 10, additional responsive data compiled during the course of the investigation may become available after that date. At this time, PG&E estimates that the internal investigation will be completed by December 31, 2010. For this reason, PG&E anticipates that some limited amount of responsive data may become available after December 10th and, if so, PG&E will provide to CPSD a supplemental response to Data Request No.1 by January 10, 2011.

Beyond this limited exception, PG&E expects to respond to CPSD's Data Request by December 10th.

Please feel free to contact me with any questions or concerns. I can be reached at (415) 973-1398.

Sincerely,

Jane Yura
