

Pick three items

to reach your energy-saving goal.

SmartMeter interface showing energy-saving tips and a power usage chart. The interface includes sections for 'Energy-saving tips', 'Use CFL light bulbs', 'Replace outdated appliances', and 'Use "air dry" instead of "heat dry" on your dishwasher'. A power usage chart is visible on the right side of the interface.

SmartMeter interface showing a goal setting screen. The screen displays a grid of numbers and a 'Goal' label.

See which items use more or less power.

Take charge of your power with SmartMeter™ technology
