Subject: Confidential - 583 - Noncore Customer Curtailment List

<<...>> <<...>> All,

Attached is our response to your request for a list of all noncore customers in the San Francisco Peninsula. Please note that the spreadsheet with the noncore customer information contains both customer sensitive information, as well as customer competitive information (load data). For these reasons, we are submitting the list under Public Utilities Code section 583.

Please let me know if you have questions regarding this response.

Thanks, (and Happy Thanksgiving!)

Lise H. Jordan | Attorney | Pacific Gas and Electric Company

**Subject:** Letters to Customers Re: Potential Curtailments

<< File: EXTERNAL-customer letter re curtailment 11-2010\_approved (2).doc >> << File: EXTERNAL ForCUSTOMER\_PeninsulaOptions10summary\_Noncore.xls >> Rich, Julie, and Patrick,

Attached is a template of the letter that we are sending to our customers in the San Francisco Peninsula to communicate the expected levels of curtailment for their facilities in the event of a local curtailment, and to encourage customers to prepare if these local constraints should occur. Also included in our communication is a Peninsula 2010 Winter Planning document which illustrates the extent of curtailment during the three curtailment scenarios we discussed today.

Our plans for sending these letters were finalized over the weekend, and are being sent to our customers starting today, in order to give us enough time to complete our communications before the cold weather sets in.

We expect to send you the list of noncore customers tomorrow.

Please let me know if you have any questions.

Thanks,

Lise H. Jordan | Attorney | Pacific Gas and Electric Company
