Subject: RE: copper mountain

Hi Amy:

1. Copper Mountain did reach 38 MWs at the end of October.
2. Hatchet Ridge is fully operational and delivering test energy to the grid. We have not declared full COD under the PPA because they are not a PIRP resource yet. We expect Hatchet Ridge to become a PIRP resource by the end of November, or early December, at which time we will declare full COD per the PPA.

Sorry - is Hatchet at full COD?

Thanks

Yes. We will confirm.

Thanks,

Meredith

I heard that 38 MW of the project would be online by the end of October. Can you confirm how much is currently online?

Thanks
