I know!! people will have to pay dearly for it and that should be told to the legislatures and the public. the new bill is an extreme take on this and I think IOUs should point to the cost.

okay, I will dig and see if I find anything.

Simon is the Commissioner on the Gas T&S GRC. Peevey on the electric T&D and gas distribution GRC. Not sure what they are talking about regarding SmartMeters. IF we offer RF free options, someone is going to have to pay for it.

hi

no reason. the other day we were talking to some consumer groups and they brought up something about smart meter/AMI cost/benefit in your GRC, but I don't know what they're talking about. do you?

also, is Simon your Commissioner on this?

hi,

is your GRC still pending approval of the settlement or has it been approved already?

marz
