I. INTRODUCTION

On October 8, 2010, PG&E filed a motion requesting a Commission order declaring that, in the event a final Commission decision is not issued in this proceeding before January 1, 2011: (1) 2011 Gas Accord V revenue requirements and rates can go into effect on January 1, 2011, subject to adjustment should a subsequent final decision result in different revenue requirements and/or rates; or, in the alternative, if the Commission decides not to allow rates to go into effect January 1, 2011, (2) revenue requirements resulting from a final decision in this proceeding will be effective as of January 1, 2011, so that PG&E can collect the full revenue requirement in rates for the remaining months of 2011 after a final decision is issued in this proceeding.

On November 16, 2010, Administrative Law Judge (“ALJ”) Wong issued a Proposed Decision (“PD”), granting the alternative request of PG&E to make the revenue requirements resulting from a subsequent final decision in this case effective as of January 1, 2011. PG&E appreciates the Commission’s consideration of PG&E’s motion, and accepts the PD’s conclusion that PG&E’s alternative request, rather than its preferred approach, should be implemented in order to allow PG&E to recover in full its authorized revenue requirement for 2011. Pursuant to Rule 14.3 of the Commission’s Rules of Practice and Procedure, PG&E offers the following comments on the PD, intended to: (1) summarize the rate adjustments under the previous Gas Accord settlement (Gas Accord IV) that will be implemented on January 1, 2011; and (2) clarify

that the elements of the Gas Accord V Settlement that are inextricably intertwined with the revenue requirement should also be deemed effective as of January 1, 2011.

II. RATE ADJUSTMENTS THAT WILL BE IMPLEMENTED ON JANUARY 1, 2011 UNDER GAS ACCORD IV

The gas transmission and storage rates that will be effective on January 1, 2011 are governed by Section 2.3.2 of the Gas Accord IV Settlement (A.07-03-012), which governs rate changes in the event that a final order on PG&E's 2011 GT&S Rate Case is delayed beyond January 1, 2011.

As PG&E informed the parties to its 2011 GT&S Rate Case in an email dated November 29, 2010, backbone transmission, storage, and Customer Access Charge rates will remain at 2010 levels beginning January 1, 2011, in accordance with Section 2.3.2 of the Gas Accord IV Settlement. Local Transmission rates will equal the rates in effect on December 31, 2010, plus a two percent escalator. In addition, the negotiated Adder component for one of the Gas Accord IV Local Transmission Adders (for Line 406) will be reflected in rates starting January 1, 2011, because that project went into service in 2010.

In addition, in the spirit of Gas Accord V — in which the parties agreed to extend the bill credits from Gas Accord IV — the Local Transmission bill credits for Moss Landing Power Plant Units 1 and 2 and for four members of the Northern California Generation Coalition will be extended at 2010 levels. These bill credits will be extended at 2010 levels because the funding for them (through two volumetric surcharges — one applicable to all backbone customers except G-XF and the other applicable to Backbone Level G-EG and G-NT customers) will continue unchanged on January 1, 2011 under Section 2.3.2 of the Gas Accord IV Settlement.

III. REQUEST FOR CLARIFICATION

The PD adopts PG&E's alternative approach to implementing the revenue requirement resulting from a final decision in PG&E's 2011 GT&S Rate Case. Under the PD, once the

Commission issues a final decision on PG&E's 2011 GT&S Rate Case, the approved 2011 revenue requirements will be effective as of January 1, 2011, and fully collected in rates throughout the remaining months of 2011.

In filing this Motion, it was PG&E's intention that PG&E and the other Settlement Parties should get the full benefit of their bargain under the Gas Accord V Settlement during 2011. In other words, even if a final decision in this case is delayed beyond January 1, 2011, PG&E and its customers should be left in the same financial position during 2011 as if the effective date *was* January 1, 2011.

Accordingly, if the PD granting PG&E's alternative request is approved, once a final decision is issued in this case, PG&E intends to adjust each Gas Accord V rate for the remaining months of 2011 upward or downward as appropriate to ensure that together the 2011 Gas Accord IV extension rate, and the 2011 Gas Accord V adjusted rate for a given class or service, collect the Gas Accord V 2011 revenue requirement allocated to that class or service, assuming Gas Accord V adopted throughput levels for the entire year.

In addition, PG&E requests that the Commission clarify that other provisions of the Gas Accord V Settlement that are inextricably linked to the revenue requirement will be effective retroactive to January 1, 2011. These provisions are:

- One-way balancing account for Integrity Management Expense (Section 7.3.1);
- Balancing Account for Electricity for Operations Expense (Section 7.3.2);
- Adjustments for Costs Determined in Other PG&E Proceedings (Section 7.5);
- Local Transmission Bill Credits (Section 9.5); and
- The Revenue Sharing Mechanism (Section 10.1).

This clarification is needed in order to carry out the Settlement Parties' intent in signing Gas Accord V, and to allow PG&E and the Settlement Parties to realize the full benefits of Gas

APPENDIX

PG&E requests the following change to Conclusion of Law 3 (proposed changes shown in redline):

3. PG&E's alternative request in its October 8, 2010 motion to allow the revenue requirements (and other aspects of Gas Accord V that are inextricably linked to the revenue requirements), which are to be decided in a subsequent decision, to become effective as of January 1, 2011, should be granted.

PG&E requests the following change to ordering Paragraph 1 of the Interim Order (proposed changes shown in redline):

1. The October 8, 2010 motion of Pacific Gas and Electric Company is granted insofar as to allow the revenue requirements (and other aspects of Gas Accord V that are inextricably linked to the revenue requirements), which are to be decided in a subsequent decision addressing the August 20, 2010 motion to adopt the Gas Accord V Settlement and the contested issues that were litigated, to become effective as of January 1, 2011. The first request in Pacific Gas and Electric Company's motion to make the revenue requirements and rates contained in the Gas Accord V Settlement effective as of January 1, 2011, is denied.
