Gurbux,

Just got your email. Understand your need to get this quickly.

Chuck Marre, who reports to Jane Yura is already working internally to get this info. I believe he will be giving you a call shortly.

As an FYI, my counterpart Bill Stock is the lobbying lead on San Bruno. I have alerted him to your request as well, but please let me know if I can be of any further assistance.

Jennifer

Subject: Line 132

Jennifer, we are getting questions on the \$5 million that was diverted from line 132. PG&E has maintained that it spent more money in total than was authorized but spent the money on other higher priority projects.

1. Please provide me an explanation of which higher priority project (s) the \$5 million was spent on along with a complete list of all projects done during that time.

2. Also need actual pipe line safety expenditures over the last 5 years.

I need this information by the end of the day today. Please give me a call if you have any questions. Thanks.
