Gurbux,

Just got your email. Understand your need to get this quickly.

Chuck Marre, who reports to Jane Yura is already working internally to get this info. I believe he will be giving you a call shortly.

As an FYI, my counterpart Bill Stock is the lobbying lead on San Bruno. I have alerted him to your request as well, but please let me know if I can be of any further assistance.

Jennifer

Subject: Line 132

Jennifer, we are getting questions on the \$5 million that was diverted from line 132. PG&E has maintained that it spent more money in total than was authorized but spent the money on other higher priority projects.

**1.
Please provide me an explanation of which higher priority project (s) the \$5 million was spent on along with a complete list of all projects done during that time.**

**2. Also
need actual pipe line safety expenditures over the last 5 years.**

**I need
this information by the end of the day today. Please give me a call if you
have any questions. Thanks.**
