Subject: San Francisco

Hello,

In anticipation of the smart meter rollout in San Francisco, can you please schedule a few sessions with local government (i.e. city council, etc). I want us to be prepared. I want to attend every SF event with PG&E and I believe Karl, advisor to Peevey, also wants to attend; I will speak at the event and he'll be a listener.

Are you planning on organizing a few events with SF local govt or other local groups?

thanks,

marzia
