CONFIDENTIAL

Amy,

Attached is an excel version of the Manzana scenarios that we discussed on Friday. The 20 year life scenario that you requested is the last table on the last sheet.

Also, I attached the current offers list annotated with the information that we provided orally.

Please let me know if you need more information.

Thanks,
Meredith

Could you also send me excel versions of all the documents presented on Friday?

Thanks

Hi Amy,

The 30 year 30.3% capacity factor with 8/09 should be on the last page in the second table of the handout that we provided on Friday. That last page is all 8/09 forward curves.

We will calculate the other scenario.

Thanks,
Meredith

Meredith,
Could you provide me with the following:
30.3% capacity factor, August 2009 curve, 20 and 30 year project life. If you could get this to me ASAP that would be great.

Thanks!
