Re: Substitute Sheet for SDG&E's Advice Letter 2175-E

Please find enclosed the original and five copies of a substitute sheet for Advice Letter 2175-E, *Establishment of the Temporary Treatment for Local Resource Adequacy Obligations During Direct Access Reopening in Compliance with Decision 10-03-022*. SDG&E is filing the following substitute sheet, at the request of the Energy Division, to include the months of January, February and March to the 'Monthly Shaping Factors' within Special Condition 14 of Schedule DA.

A double asterisk has been reflected in the upper right hand corner of the sheet to indicate that this is a substitute sheet. Please replace the enclosed sheet in the master Advice Letter 2175-E.

A copy of this sheet will be provided to SDG&E's GO 96-A list and the service list for R.07-05-025.

Sincerely,

Christina Sondrini
Regulatory Affairs, Tariff Administration

14. Transfer of Local Resource Adequacy (RA) Capacity Credit. This temporary optional service shall be provided, upon request, by SDG&E to a Load Serving Entity (LSE) acquiring new load resulting from the implementation of increased limits for DA transactions in accordance with the provisions of Senate Bill (SB) 695 and D.10-03-022. This service shall be available only during the 2010 calendar year. Pursuant to D.10-03-022, the LSE's transfer payment obligation to SDG&E shall be determined as follows:

Customer Local RA Obligation (CLO) x Administrative Price for Local RA Monthly Capacity

Where:

The Administrative Price for Local RA Monthly Capacity = The Charge for Transfer of Local Resource Adequacy Capacity Credit, as set forth in the rates section above, multiplied by the applicable Cumulative Shaping Factor

CLO = Local to Peak Ratio (LPR) x DA customer's actual recorded 2009 Coincident Peak Demand (MW), as determined by SDG&E

LPR = Total 2010 Service Area LCR in MW (less Local MW from DR, CAM, and RMR1 & 2) / Forecasted Service Area 2010 CPD. The LPR for 2010 is 61.90%.
