Subject: RE: Standard NDA for Providing Copies of SVTC DOE Application

Matt, Theresa, Nicole, Ryan et al-

TURN and PG&E have agreed to a standard form NDA to use for confidential info in the solar PV application proceeding, A.10-11-002. Here is the form for your review and approval and execution if acceptable. Note that your individual reviewing representatives and consultants need to each sign the individual acknowledgement forms, in addition to you signing the overall agreement on behalf of your respective clients. If you can sign and email a PDF copy or fax the signed copy to me 415-973-0516, I will then send you a copy of the unredacted SVTC DOE application, along with a copy of the NDA signed by PG&E.

Thanks for your help, and feel free to call me if you have any questions.

Chris Warner
