

**DECLARATION OF GARRETT P. JEUNG  
SEEKING CONFIDENTIAL TREATMENT  
FOR DATA AND INFORMATION  
CONTAINED IN THE GREENGATE DATA REQUEST RESPONSES SUBMITTED  
DECEMBER 29, 2010  
(PACIFIC GAS AND ELECTRIC COMPANY - U 39 E)**

I, Garrett P. Jeung, declare:

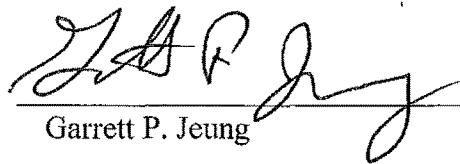

1. I am presently employed by Pacific Gas and Electric Company ("PG&E"), and have been an employee at PG&E since 2003. My current title is Senior Director within PG&E's Energy Procurement organization. In this position, my responsibilities include managing a department that is responsible for renewable energy procurement and development. In carrying out these responsibilities, I have acquired knowledge of PG&E's contracts with numerous counterparties and have also gained knowledge of the operations of electricity sellers in general. Through this experience, I have become familiar with the type of information that would affect the negotiating positions of electricity sellers with respect to price and other terms, as well as with the type of information that such sellers consider confidential and proprietary.

2. Based on my knowledge and experience, and in accordance with Decision ("D.") 08-04-023 and the August 22, 2006 "Administrative law Judge's Ruling Clarifying Interim Procedures for Complying with Decision 06-06-066," I make this declaration seeking confidential treatment of certain information and data contained in the Greengate Data Request responses submitted December 29, 2010.

3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking to protect constitutes the particular type of data and information listed in Appendix 1 of D.06-06-066 and Appendix C of D.08-04-023 (the "IOU Matrix"), or constitutes information

that should be protected under General Order 66-C. The matrix also specifies the category or categories in the IOU Matrix to which the data and information corresponds, if applicable, and why confidential protection is justified. Finally, the matrix specifies that: (1) PG&E is complying with the limitations specified in the IOU Matrix for that type of data or information, if applicable; (2) the information is not already public; and (3) the data cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial disclosure. By this reference, I am incorporating into this declaration all of the explanatory text in the attached matrix.

I declare under penalty of perjury, under the laws of the State of California, that to the best of my knowledge, the foregoing is true and correct. Executed on December 29, 2010, at San Francisco, California.

2	PG&E response to data request	Y	Item VII G) Renewable Resource Contracts under RPS program - Contracts without SEPs. Item VII (un-numbered category following VII G) Score sheets, analyses, evaluations of proposed RPS projects. General Order 66-C.	Y	Y	Y	<p>This document discusses, analyzes and evaluates the terms of various PPAs. Disclosure of this information would provide valuable market sensitive information to competitors. Since negotiations are still in progress with other counterparties, this information should remain confidential. Release of this information would be damaging to negotiations. Furthermore, the counterparties to the PPAs have an expectation that the terms of the PPAs will remain confidential pursuant to confidentiality provisions in the PPAs.</p> <p>The document also describes how the counterparty will manage the contracts, which should be accorded confidential treatment under General Order 66-C. General Order 66-C includes in its category of records not open to public inspection "Information obtained in confidence from other than a business regulated by this Commission where the disclosure would be against the public interest." (Paragraph 2.8). It is in the public interest to treat such information as confidential because if such information were made public, it would put the counterparties at a business disadvantage, could create a disincentive to do business with PG&amp;E and other regulated utilities, and could have a damaging effect on current and future negotiations with other counterparties. In addition, PG&amp;E's portfolio management strategy is information that, if revealed, would place the company at an unfair business disadvantage.</p>	<p>For information covered under Item VII G) and Item VII (un-numbered category following VII G), remain confidential for three years after the commercial operation date</p> <p>For information covered by General Order 66-C, remain confidential</p>
