Subject: RE: PG&E Contract w/ Solel Terminated

Redacted

Thanks for letting staff know. I think that this highlights the risk in contracting with a project that doesn't have site control. Something to consider with regards to the 600 MW of BrightSource capacity without a home.

Regards,  
Sean

**Subject:** PG&E Contract w/ Solel Terminated

Sean/Amy:

FYI, Solel submitted a Development Failure notice to PG&E, which allowed us to declare an Event of Default and terminate the contract. As you know, the project had been impacted by the proposed Mojave Trails National Monument. The official contract termination date is 12/1/2010. If you have any questions, please let me know.

Thanks,
