Subject: RE: Potential Dates for QF Biomass Meeting  
Meredith,

We are confirmed for January 13, between 2:00 – 3:00.

As I mentioned before, I would like the meeting to cover all renewable QFs, i.e., biomass and then all other resources. I think that most of the information is in Hugh's 12/10 PRG presentation. Can you please make sure to include these items in the agenda.

- [Redacted] Current renewable QF portfolio by resource type
  - number of contracts and capacity amount
  - contract expiration dates (this can be shown graphically as total MW and/or MWh amount between 2010-2020)
- [Redacted] Current pricing terms for PG&E's renewable QFs
  - Include when and how the pricing terms change, as applicable (e.g., IEP Settlement price of \$/MWh expires August 2011)
- [Redacted] Applicability of QF/CHP Settlement to existing Renewable QFs  $\leq$  20MW
- [Redacted] Describe the extent to which PG&E has negotiated or discussed its proposed pricing terms with counterparties
- [Redacted] PG&E's pricing proposal for renewable QFs (excluding biomass, if PG&E's proposal is to differentiate)
- [Redacted] PG&E's pricing proposal for renewable biomass QFs

- Proposed process for offering the new pricing terms
- Proposed process for seeking Commission approval of the new pricing terms (e.g., application, tier 1, 2, 3 advice letter)

Thanks,

Sean

Sean,

Unfortunately that afternoon doesn't work. EP has an all afternoon meeting that day. Would 1/13 from 2:00-3:00 work?

I haven't seen the Covanta protest but will track it down and review. I will call you on Monday to discuss the agenda.

Happy holidays!

Meredith

Meredith,

Unfortunately those dates don't work. How about Wednesday, January 12 between 3-4. Also, I would like the scope of the meeting to include all renewable QFs. Let's touch base today or next week to discuss the agenda.

Did you read DRA's protest to Covanta Oroville (AL 3770-E)?

Regards,

Sean

Sean,

Would 1/7 at 9:30 or 1/10 at 3:30 work?

Thanks,  
Meredith
