CPUC Information Alert: CPUC Response to NTSB Safety Recommendation Letter re: San Bruno Pipeline Explosion

The California Public Utilities Commission (CPUC) today received a series of Safety Recommendations from the National Transportation Safety Board (NTSB) following the Sept. 9, 2010, Pacific Gas and Electric Company (PG&E) pipeline explosion in San Bruno.

Today the CPUC's Executive Director sent the attached letter to PG&E directing the company to undertake the actions recommended by the NTSB.

The CPUC also sent a letter to the state's other natural gas pipeline operators - Southern California Gas Company, San Diego Gas & Electric Company, and Southwest Gas Corporation – directing the companies to report to the CPUC's Executive Director the steps they are taking in response to the NTSB's recommendations. That letter is also attached.

Please let me know if you have any questions.

Terrie
