Kathryn:

I'll work on the subsheets and will get you a copy in Word.

Thanks,
Ron

Ron and All:

I am fine with subsheets; but I am for correcting all these things at once - except for the first item I mentioned. PG&E's proposed tariffs are consistent with D.10-10-024.

Could you send me these in Word - Appreciate it!

Kathryn:

This is in response to the three issues you raised in your April 26th email about Advice Letter 3546-E on the Limited DA Reopening.

1. Where is the location of the implementation detail for the provisions found in OP 3 and on p. 15 of D.10-03-022 which state that “All DA-eligible customers will be free to switch to DA at any time, subject to the applicable switching rules, as long as room exists under the overall cap. The DA eligible here refers to the customers that had DA as of the Sep 2001 suspension.”

- We believe this is covered in Section B.2, where it states, in part, “At the end of a DA-eligible customer’s three (3) year BPS commitment, the customer may have the option to transfer to DA service under the provisions of Section B.2 of this rule or remain on Bundled Service. Between April 16, 2010 and June 30, 2010, all DA-eligible non-residential customers may have an opportunity to transfer their service account(s) to DA service under the provisions of Section C, below, or remain on Bundled Service.” and Section B.2.a, where it states, in part, “Subject to the DA load limitations set forth in Section C, DA-eligible customers may elect to switch to DA service at any time subsequent to the conclusion of the three (3) year BPS commitment period with the required six (6) month advance notice.” Section C is our newly added section which describes switches to DA service during the Phase-In Period.

2. Edits to Rule 22

- □□□□□□□□ Page 2 – Section A.3, we will correct the typo in the Decision Number.
- □□□□□□□□ We do not disagree with your other suggested edits, but would like to include these changes in a future “clean-up” filing as they are not directly related to the compliance filing.

3. Edits to Rule 22.1

- □□□□□□□□ Page 10 – Introduction, Paragraph 3, we will insert the missing word “to” in the second sentence of the first paragraph.
- □□□□□□□□ Page 15 - Section C.2.a - we will correct the typo in the reference to the total 2010 Load Cap amount; the equation is correct.

• [Redacted] Page 15 - Section C.2.b – The 2011 Load Cap amount is correct, but the typo in the 2010 Load Cap amount is carried over into the equation. We will also correct this typo in the 2010 Load Cap amount.

• [Redacted] Page 17 – Section C.4.b(2) will delete the words “begin to” and insert the word “may” into the first sentence.

• [Redacted] Page 25 – Section C.6.c(1). This section is titled “In 2012 and 2013” so we used “January 2, 2012” instead of “July 1, 2011” in this section because this the first business day a customer can submit a six month notice in 2012. As noted in C.6.b(1), a customer can submit a six-month notice as early as January 3, 2011 for a switch that would occur in 2012 if no space were available under the 2011 Load Cap. As there is nothing in section C.6.b(1) that would prevent a customer from submitting a six-month notice on July 1, 2011 for a switch in 2012 as long as there was still space available under the 2012 Load Cap, we are proposing to leave the date in Section C.6.c(1) as January 2, 2012.

I hope this addresses your concerns. With your agreement, we would like to file slipsheets to correct the minor typographical errors.

Ron

[Redacted]

Two substantive issues need correcting:

1. I find no mention in the tariffs that covers the provision found in OP 3 and on p. 15 of D.10-03-022 that All DA-eligible customers will be free to switch to DA at any time, subject to the applicable switching rules, as long as room exists under the overall cap. The DA eligible here refers to the customers that had DA as of the Sep 2001 suspension. This implementation detail needs to be added somewhere.
2. The first-year (2010) cap I think should be 6,955 (instead of 6, 995)GWh

The tracked changes in the attached file are things that have not been kept up-to-date for whatever reason, e.g., all ESPs register with the CPUC, not just those offering service to small customers; an ESP, per CPUC Code Sec 394 et seq. is an Electric (not Energy) Service Provider. I did not mark this to be changed in all your forms, but technically, this should be consistent throughout.
