Subject: RE: PG&E safety reports - Index No. 637

Jane and Daren,

Below is request that was sent to Redacted (I understand she is working in another capacity) in September of last year regarding pipeline safety reports PG&E submits to the CPUC and her response. Under Item #3, it was noted that the gas transmission reports (TIMP) for 2008 and 2009 had yet to be completed. Are these reports finished and, if so, can you please send them to me?

Thank you,

Eugene

Subject: FW: PG&E safety reports - Index No. 637

Eugene,

Question(s):

1) Copies of the last five "Gas Pipeline Replacement Program Annual Progress Reports" submitted to the CPUC? Such a report was filed by PG&E in the pending GRC with the notation (PG&E - 3) beginning on WP 19-22. (pdf

version is fine) In email attachment

2) Do these reports just include gas distribution related projects? Yes

3) 3) Does PG&E prepare a similar report for its backbone and local transmission lines? If so, please provide us with copies of the last five versions of this report as well. See attached for TIMP reports for 2005, 2006 and 2007. The report for 2008 was not completed and the 2009 report is still in draft form.

<<2005 Annual TIMP Report (from doc files).pdf>> <<2006

Annual TIMP Report.pdf>> <<2007 Annual TIMP Reoprt.pdf>>

4) Does PG&E provide the CPUC with any other safety related gas reports on a routine basis? Yes, PG&E submits reports on the Meter Protection Program as well.

<<MPP2005ANRPT.pdf>>

<<MPP2006ANRPT.pdf>>

<<MPP2007ANRPT.pdf>>

<<MPP 2008 Annual Report with tables - FINAL 043009.pdf>>

Megan

H.

Subject: PG&E safety reports

Megan,

Can you provide us the following:

1) Copies of the last five "Gas

Pipeline Replacement Program Annual Progress Reports" submitted to the CPUC?

Such a report was filed by PG&E in the pending GRC with the notation

(PG&E - 3) beginning on WP 19-22. (pdf version is fine)

2) Do these reports just include gas distribution related projects?

3) Does PG&E prepare a similar report for its backbone and local transmission lines? If so, please provide us with copies of the last five versions of this report as well.

4) Does PG&E provide the CPUC with any other safety related gas reports on a routine basis?

Thank you,

Eugene
