Briefing

Richard:

We are scheduled to brief you on the latest on the Pipeline 2020 project on January 5. Originally it was going to focus on the emergency response part of the program. Randy Livingston wants to provide you with an update on the other parts of the program too. This will be in advance of him giving PHMSA and others in DC updates on the program in mid-January. He has also asked that Paul Clanon attend if he is

interested and can fit it in. As a result I am copying him on this note and will work to see if he can make it.

Let me know if you have any questions on this.

Bill
