QUESTION 19

Provide the estimated costs that will be incurred by PG&E to remove electric meters that use an Aclara communication system.

ANSWER 19

To ensure consistent usage, PG&E assumes the reference in this data request to "Aclara" electric meters and communications systems references "Hexagram-Electric" meters and communications systems.

As shown in Attachment DRA_001-16-1, in the column titled "Remaining COR," the estimated costs that will be incurred by PG&E to remove electric meters that use a Hexagram-Electric communication system is \$310,850.
