Subject: RE: are you still the EE guy?

Well, D.10.10.033 established a workshop series that is to be led by PPD. I think getting a sense of what PG&E expects from the workshop series as well as what PG&E expects an evaluation plan in the post 2012 environment to be would be helpful in planning the overall effort. In addition, since me, PPD and other staffers are being dragged into the EE world kicking and screaming and only knowing the horrors that have been reported in the press, it would be good to get a sense of the overall program, program goals, and of the major components of the program (portfolios, evaluation, incentives).

Does that help?

Whom would you like to meet? Would you like just a couple of smart people to give you a broad scope?

Do I seem terse? Blame the thumb keyboard.

Looking to set up a meeting with the EM&V team. Since I got thrown into the morass in order to "provide a fresh set of eyes, and a new perspective" on EM&V in the post-2012 world, I figure I should try and learn me sumthin bout EM&V.

Possible dates: afternoon 2/3, afternoon 2/4, anytime 2/7, anytime 2/8, anytime 2/9

Any of those work?

Yes, that's me! Should we talk?

Do I seem terse? Blame the thumb keyboard.

And more specifically the EM&V guy?
