Subject: RE: RPS leg info hearing next week

Thanks for getting back to me Paul. I am on a plane in the AM so I think Valerie will need to be the coordinator here. I may be able to call in so perhaps she can set something up and I will join if possible or circle back. We have been discussing it internally and our main plan is just to do a few slices of our RPS portfolio and noodle on some ideas about what is working and what isn't. The main theme from us will be limit new policy initiatives and focus on executing on what you have already going (which is A LOT). I love the work that Picker does for the Gov's office and glad he's staying on -- what can I get done fast within the rules that exist today? Very practical. Any idea who is on tap for the PUC?

Val, can you set up something?

Aaron,

Coordination sounds like an excellent idea. Are you available for a 9:30 - 10 conf call tomorrow? Do we need a call-in number, and if so, is that something you can set up?

Paul

**Subject:** RPS leg info hearing next week

Hey Paul and Julie...

I understand it is highly likely there will be an RPS informational hearing next Tue in Sacto. Not a 33% food fight but rather just information on how the program is going and what folks are doing. I will either be testifying or preparing someone else's testimony and want to check in with you both to coordinate (assuming one of you will be doing the speaking on behalf of the PUC). I understand the PUC will kick it off with a

program overview and I just want to make sure we don't present the same stuff that you guys are already going to cover if you are giving a presentation on the state of things RPS and IOU performance. I have to head back east for a personal matter tomorrow and will be out the rest of the week, but I will be on email if there is anyway to coordinate or exchange info (e.g., an outline of what you plan to present, etc.). Also reachable on mobile if you want to set up a time to chat briefly -- might help to have the other IOUs on the phone as well. Thanks in advance for any help you can provide with this.

Aaron
