Subject: FW: Kelly Karch, CFEE Fellow

Kelly's fellowship with CFEE ends in February. Her background and experience may make her of interest within your departments:

"MA in economics with over five years of professional experience and a proven ability to develop and implement research and analytical strategies that support business and operational objectives. Research positions enhance a strong educational background focused primarily on econometrics along with environmental and international economics. High level of interest in the complex interaction of environmental protection and economic growth, particularly the implementation of climate change, renewable energy and low carbon fuel mandates; implementation of transportation and energy infrastructure projects through public private partnerships (P3s), sustainable development, and land use."

Hal:

**Can I trouble you to give Kelly a meeting/call and advise her?
She is well contacted due to CFEE. I did not get to know her well on the trip.**

Thanks!

Fong

Dear Fong:

It was a pleasure getting to know you a little during the CFEE study travel project. Following the trip, I hope you had a chance for things to get back to normal in time for the holidays.

As you know, my fellowship with CFEE will be coming to an end in just a couple of short months and I am very interested in beginning my career at PG&E. During the fellowship, I have had the opportunity to actively engage members of the legislature, regulatory officials and staff, senior executives from major corporations, and interest group representatives on current policy issues in California which allowed for a deeper understanding of current California policies and the political framework. This understanding has secured my interest in the utility and energy industry regulatory environment. Thus, I am excited to apply, within this industry, the analytical and research skills I developed during my economics degrees.

I would welcome the chance to provide you with additional information to supplement what appears in my attached resume. Thank you very much for your time. I look forward to hearing from you soon.

Best regards,
Kelly Karch
