Subject: FW: NPC Demand Task Group Meeting in San Francisco - January 11, 2011

Ken,

Just wanted to forward this information on the working session and agenda of the National Petroleum Council meeting on January 11. We understand that Commissioner Simon is only confirmed to attend the dinner but this is just FYI.

Additionally, our representative on the working committee, [Redacted] had an opportunity to speak to some dinner conference attendee. They suggested that in addition to a regulator's perspective on role of natural gas in California, Commissioner Simon's thoughts on the key issues before NARUC Natural Gas Committee given his position as head would also be of particular interest:

Please let me know if we can help in any way.

Thanks again for your help!

Jennifer

Remember the Antitrust Guidelines, and don't

- Coordinate your companies' plans, prices, outputs
- Disclose your company's non-public information
- Use the study process to create competitive harm

Check with counsel before you

- Collect or discuss non-public data
 - Evaluate public data about future prices and costs
- Discuss topics about whose legality you're unsure
