Subject: RE: HVAC Program Change Information

Jeanne,

You are correct, the statement in the press release you refer to means that PG&E is responding to the oversight of Energy Division and the CPUC as reflected in past orders governing the 2010-2012 programs (in addition to our own evaluation of past programs).

In answer to your second question, other than updating Energy Division (Simon Baker, you and other relevant staff) as we have done, we do not anticipate at this time that any additional formal notification or approval by the CPUC is required. If that changes as the field studies and design work wrap up, we will notify Energy Division and take any other appropriate steps.

Regards,

Brian

Subject: RE: HVAC Program Change Information

Well, I certainly understand the motivation and steps being taken to get a more sustainable go-to-market model with HVAC contractors, and the desire to both capture more of the EE savings opportunities and do so with more streamlined overhead, thus increasing (hopefully) program C-E dramatically.

That said, not sure what the phrase in your public statement for today's demonstration means:

"...at times it is necessary to work with our regulators at the CPUC to transition energy efficiency programs so that their effectiveness is enhanced."

If you are saying you are absorbing and responding to the results of Energy Division's oversight of past program's evaluation, of course that is true.

But are you also anticipating that the program change now underway will require any kind of

formal notification and approval by the CPUC? If so, please let us know what you anticipate and when?

thanks for the info.

Jeanne

Subject: HVAC Program Change Information

Jeanne,

Thanks for your v-mail concerning our update on the 2010-2012 HVAC program changes and the demonstration by some of the implementing HVAC contractors. Per your request, I am attaching background materials for you use if needed.

Please note that we updated Simon Baker on the status of discussions with HVAC VSPs in person on December 22, 2010 and by voice mail on January 10.

Please give [Redacted] or me a call if you need more information. [Redacted] can be reached at [Redacted].
[Redacted] Thanks and have a good weekend.
