Subject: Re: Updated: SmartMeter T Technology Advisory Panel (Session4)

Thanks for circulating these David. I'm going through the Sage and the December EPRI/Tell reports now. There is a huge contrast in the quality/readability of these two documents, but I'm trying to keep in mind the level of funding that went into each of them.

Note that CCST is taking public comments on their report until Jan. 31.

Tom

Subject: Re: Updated: SmartMeter T Technology Advisory Panel (Session4)

Dear TAP and PGE folks,

Please find attached two recent reports on Smart Meter RF impacts, one by the California Council on Science and Technology--for Assembly Members Huffman (Marin) and Monning (Santa Cruz); the other by Sage Associates.

These are likely to figure prominently in the upcoming debate over the health impacts of Smart Meters as AB 37 winds its way through the leg.
