Subject: RE: Meeting agenda, format and attendees - SmartMeter T Technology Advisory Panel (Session 4)

DRA would definitely like to discuss these alternatives, but we have two concerns: having a private TAP meeting which does not conform to the TAP charter, and having state employees sign NDAs. Can you explain why PG&E is not already protected by section 583? DRA is discussing the proposition and will get back to you.

Thanks,

Tom

**Technology Advisory Panel Members:**

**Location – 1/28 Session**

#4:

PG&E  
offices

77 Beale Street, San  
Francisco

Conference Room 303, Floor 3.

**Agenda:**

As

discussed in session 3 the focus of this meeting will be '**Deployment Alternatives**', more specifically, potential deployment solutions to address customer concerns related to SmartMeter installations. The meeting will be in a working session format rather than presentation-based. We have attached a draft meeting agenda and the proposed final meeting minutes from Session 3.

Given the evolving nature of this area, its complexity and to better facilitate the sharing of ideas PG&E proposes the following:

–

Inviting project team members from SDG&E and SCE to join the meeting discussion regarding technology alternatives;  
and

–

This session to be considered confidential – with each participant signing a general non-disclosure agreement prior to the meeting (to be provided later today/tomorrow).

If any TAP member is concerned with these proposals, please contact myself or Sid.

James  
Meadows
