Subject: Meeting agenda, format and attendees - SmartMeter™ Technology Advisory Panel (Session 4)

Technology Advisory Panel Members:

Location – 1/28 Session #4:

PG&E offices

77 Beale Street, San Francisco

Conference Room 303, Floor 3.

Agenda:

As discussed in session 3 the focus of this meeting will be '**Deployment Alternatives**', more specifically, potential deployment solutions to address customer concerns related to SmartMeter installations. The meeting will be in a working session format rather than presentation-based. We have attached a draft meeting agenda and the proposed final meeting minutes from Session 3.

Given the evolving nature of this area, its complexity and to better facilitate the sharing of ideas PG&E proposes the following:

- Inviting project team members from SDG&E and SCE to join the meeting discussion regarding technology alternatives; and
- This session to be considered confidential – with each participant signing a general non-disclosure agreement prior to the meeting (to be provided later today/tomorrow).

If any TAP member is concerned with these proposals, please contact myself or Sid.
