Subject: RE: CCA implementation reporting--Energy Division Data Request

Actually, DRs are probably best sent through the regulatory group handling CCA issues. Specifically, Sujata Pajetar and [Redacted]

Of course if you send it to me I will forward it to them for handling. We work with them on the responses.

Sebastien

Ah, sorry to both of you. I thought DRs had to go through you, Erik, or I would have sent directly to Sebastien. My mistake.

Steve

Steve, I've forwarded your request to Sebastien and he will follow-up with you. Thanks, Erik

Hi Erik and Shannon,

Can you update the attached information for time periods ending 12/31/2010?

If possible, we will need this by next Friday, January 28, in order to include it in our report to the Legislature due January 31. I realize this is less time than the customary 10 business days, but I think the request is just an update of existing responses, and it is important that we include this if at all possible.

1. Customer opt-out information (I'm assuming you still know this, even though Marin took over this function post D.10-05-050)
2. "Below the line" spending summaries
3. How would PG&E propose to demonstrate how much money it has spent to "facilitate" Community Choice Aggregation? Is it possible for PG&E to provide this part of the response by January 28, or does PG&E need a full 10-business day response period?

Please call with any questions—

Thank you--

Steve Roscow
