*Note: if more than one amendment has been proposed, please answer Parts 6-8 for all price amendments to a project*

## **ANSWER 1**

PG&E has identified seven responsive contracts, using the search criteria described below. The seven contracts are listed with the required information in the attached Excel Spreadsheet: "Reply to DRA data request question 1.xls." This spreadsheet contains confidential, market-sensitive information as indicated on the spreadsheet and is submitted pursuant to California Public Utilities Code Section 583.

PG&E's response is limited to contracts that provide credit toward the RPS Program and whose levelized TOD-adjusted base contract price was amended following contract execution, excluding Feed-in-Tariff and Qualifying Facility contracts.
