Terrie, Paul,

This is the letter I mentioned to Terrie. We have no current plans to publicize this although the government relations folks will be discussing some of the content with Speier as part of their dialogue with her office ( so you might want to review as a refresher). They don't plan to give the letter out to her though. If you do plan to make this public could you please just let us know? Thanks!

**Subject:** PG&E's Confirmation re: Natural Gas Transmission Pipeline Pressure Reductions

*Sent on behalf of Brian Cherry (Vice President-PG&E Regulatory Relations):*

Richard:

Pursuant to your request, this letter confirms that PG&E has complied with the California Public Utilities Commission's (CPUC) various directives on a number of natural gas transmission lines and provides you with their current operating pressures.
