Melissa & Steve:

I wanted to try again to set up a short meeting with the two of you. I will be in DC for the NARUC meetings the week of Feb 14th and can be fairly flexible on time. As of now I am generally free Wed the 16th & Thu the 17th. I don't anticipate taking a lot of your time - just a cup of coffee would suffice. If you don't have availability those days, please suggest an alternate and I can shuffle things around if need be.

I look forward to meeting you.

-Matthew Deal

Subject: RE: Possible meeting January 5th or 7th

Melissa & Steve:

Brian Cherry suggested that I contact you to see about a possible meeting while I am in DC. There are a couple reasons for the meeting: 1) to get a better understanding of how PG&E balances the state vs federal initiatives; and 2) get an opinion from folks involved in California energy and environmental initiatives that have exposure to the national as well as other state's initiatives - essentially people that are at arms-length and possibly a bit more objective than those dealing with the issues every day.

If you are available on either January 5th or 7th I would appreciate the opportunity to meet with you; if not, perhaps we could schedule a meeting during the NARUC winter meetings.

Thanks,

Matthew Deal
