Subject: RE: Any news on decision timing?

Jennifer,

As expected, ALJ Wong is up to his ears in work, as the safety phase has been given priority and urgency. As such, he estimates that the PD will mail March 15 (the latest), putting it on the April 14 agenda. Apologies for the confusion yesterday when I erroneously thought there was a chance it would be out in time for the late March meeting (not mathematically possible, obviously).

Anyhow, not the news you wanted to hear, but not much we can do at this point. The impact of the time slippage will be conveyed to the Commissioner, and we'll be looking to address resource allocation issues.

Call if you have questions.

Best,

Paul

Paul, thanks again for looking into this!
