Subject: MAOP validation study example

Rich & Julie:

I assume that you are now safely in Washington for the NTSB hearings.

We have completed the example of the MAOP report that you suggested that we put together. I received it in a Zip file and so asking that you open it remotely could be an issue. So I have asked both our DC office and Kirk Johnson to print out copies for you. Hopefully you will have them handed to you tomorrow. There is a set of spreadsheets on one segment and some related images and definitions. At this point I think the most important issues are: Are we capturing the right data fields?; and, Does this format work for you?

I know that you will be busy over the next few days, but any feedback would be appreciated so that we can build the report.

Thanks.

You can always call me at 415 407 5867.

Bill
