Subject: RE: Request to meet and confer re DRA's SmartMeter data requests

Chonda,

Thank you for your prompt response (and I apologize for having forgotten that you are the attorney handling the SmartMeter discovery now). The attendees you propose sound fine to me. If Tom Roberts thinks anyone else may be needed, he can let us all know.

Can we tentatively reserve Monday the 22nd @ 11?

Karen Paull

Subject: FW: Request to meet and confer re DRA's SmartMeter data requests

Karen-

Mike Reidenbach is no longer working on SmartMeter and he forwarded to me your below e-mail.

I want to apologize that all Data Requests Responses have not yet been submitted to DRA. I have asked Karen Forsgard to provide a status on how many have been submitted and how many remain. We will work to expedite responses to the outstanding requests. If you and/ or Tom have would like to prioritize any specific Data Request we can work to address identified priorities. In any event, we would like to meet to address your concerns. I am available both days. I recommend that for PG&E we have the same attendees from our prior meeting [Redacted] Sid Dietz and myself.

Thanks
Chonda Nwamu

Mike,

DRA is concerned that we still have not received responses to a number of data requests sent some time ago, and that a few of the responses we received appear to us to be non-responsive. We would like to meet with Redacted (and whoever else you feel it is appropriate to include) and try to resolve these issues. Could we set up a meeting for February 22 (first choice) or 23?

Karen Paull
