Subject: 2010 LTPP: Any news of GHG timing?

Bob and Aram:

We are busily working away on the Track 2 bundled plan and, in parallel, have a group working on our GHG proposal for Track 1. I wanted to see if either of you had any more news about the timing for our Track 1 filing on GHG procurement. We are still targeting end of March, but I just wanted to keep the team here up to date if there is any change in the timing. Thanks -- this is turning out to be a very busy start to the year!
